BORCD119 Student fees at state institutions of higher education

No provision.

Executive

As Passed by the House

Fiscal effect: Potential increase in administrative responsibilities to investigate fees. Any costs would likely depend on the number of investigations and the time it takes to investigate. If the Chancellor prohibits a state institution from charging a fee, then the institution would forego the revenue it otherwise would have received unless the Controlling Board subsequently approves the fee.

Fiscal effect: May increase enrollment at community and technical colleges that offer these programs and lead to higher costs and revenues as a result.

programs that are not offered by any state university or private college).

(5) Same as the Executive.

Creates a second pathway for program approval, under which the Chancellor may approve a program that does not meet the bill's prescribed conditions, if the program clearly demonstrates a unique approach, as determined by the Chancellor, to benefit Ohio's higher education system or the state.

Executive

As Passed by the House

Defines, for that purpose, an eligible institution as follows:

(1) "An institution of higher education that is created by the governors of several states" and specifies that one of the governors of these states must be a member of the institution's board of trustees.

(2) No provision.

(3) No provision.

No provision.

Designates an institution that enters into such a partnership as a "state institution of higher education" for the purpose of providing competency-based education programs, but prohibits the institution from receiving any State Share of Instruction (SSI).

Same as the Executive, but makes the following additions and changes:

(1) Same as the Executive, but adds that this type of institution be "a regionally accredited private, nonprofit" institution.

(2) A state institution of higher education.

(3) A private nonprofit institution of higher education.

Authorizes the Chancellor, in recognizing or endorsing an eligible institution under the program, to: (1) recognize competency-based education as an important component of this state's higher education system; (2) eliminate any unnecessary barriers to the delivery of competency-based education; (3) facilitate opportunities to share best practices on the delivery of competency-based education with any eligible institution; and (4) establish any other requirements that the Chancellor determines are in the best interest of this state.

Replaces the Executive proposal with a proposal that prohibits the Chancellor from providing any public operating or capital assistance to an institution that is created by the governors of several states for the purpose of providing competency-based education in this state.

Executive

As Passed by the House

Fiscal effect: This provision appears to apply to Western Governors University, a nonprofit, online university launched in 1997 through the efforts of 19 state governors that focuses on competency-based education programs. Fiscal effect: Same as the Executive, but adds public and private, nonprofit institutions as eligible institutions for the program. Also, specifies that Western Governors' is ineligible for any public operating or capital assistance, instead of just SSI as under the Executive proposal.

DHE's administrative costs for this program are supported by \$250,000 in each fiscal year from DPF Fund 5NH0 appropriation item 235684, OhioMeansJobs Revolving Loan Program (see BORCD31). Institutions would be eligible to receive increased awards under the bill. Requires the Chancellor, in consultation with the Superintendent of Public Instruction, to administer the program.

Requires the Chancellor and Superintendent to convene, no later than December 31, 2017, a workgroup of faculty and administrators from both high schools and higher education institutions to develop one or more models for a college-ready program in mathematics. Fiscal effect: Fund 5Y50 is likely to experience increased revenue, as the provision allows the fund to receive refunds from all state financial programs administered by DHE, not just refunds from OIG and OCOG. Expenditures from Fund 5Y50 come from DPF Fund 5Y50 appropriation item 235618, State Financial Aid Reconciliation (see BORCD60).

Creates a new OCOG calculation for students enrolled in a certificate or credential program for a high-demand job, to be determined by the Chancellor, that does not apply the student's federal Pell grant to the state cost of attendance.

Fiscal effect: Expands eligibility for OCOG need-based financial aid. Prohibiting the "Pell-first" policy allows these students to receive higher OCOG award amounts than otherwise. Separate OCOG funding for these students is provided under GRF appropriation item 235500, Short-Term Certificates, with an appropriation of \$5,000,000 in FY 2019 (see BORCD121).

EDUCD81 Credit for integrated course content

R.C. 3313.603, Section 733.40

Permits public and chartered nonpublic schools to integrate academic content in subject areas for which the State Board of Education has adopted standards into a course in a different subject area, including a career-technical education course.

Specifies that a school may administer to students a related end-of-course exam in a subject in an integrated course.

Requires ODE, in consultation with the Department of Higher Education and the Governor's Office of Workforce Transformation, to, no later than July 1, 2018, develop (1) a plan that permits and encourages schools to integrate academic content so that students may earn simultaneous credit and (2) guidance to assist schools on appropriate teacher licensure required for course integration.

EDUCD50 College Credit Plus - student eligibility

R.C. 3365.03, Section 733.20

Beginning with students seeking to participate in the College Credit Plus (CCP) program during the 2018-2019 school year, requires a student, as a condition of eligibility, to either: (1) be considered "remediation-free" on one of the assessments established by the college presidents for the purpose of determining a student's remediation-free status; or (2) score within one standard error of measurement below the remediation-free threshold for one of those assessments and either (a) have a GPA of at least 3.0 or (b) receive a recommendation from a school counselor, principal, or career-technical program advisor. Requires the student to meet the college's established standards for enrollment (in addition to the college's standards for admission and course placement, as under current law), as well as the relevant academic program's established standards for admission, enrollment, and course placement.
No provision.

Same as the Executive.

Executive

As Passed by the House

Fiscal effect: May reduce participation in the CCP program, and thus, the amounts deducted from school district state foundation aid allocations to pay the costs of the program for public school students. Any reduction is likely to be small; the Department of Higher Education indicated that it has identified between 2% and 4% of CCP participants as "underperforming." CCP payments to colleges amounted to about \$39 million for FY 2016.

Fiscal effect: Same as the Executive, but may increase costs to colleges to pay for the assessments.

EDUCD52 College Credit Plus - appeals

R.C. 3365.03, 3365.12

Changes to whom a student may appeal a principal's decision, with regard to the student's participation in the CCP Program, from the State Board of Education to the district superintendent (if enrolled in a school district) or the applicable governing entity (if enrolled in other types of public schools). Specifies that the district superintendent's or governing entity's decision on the appeal is final.

Changes to whom a participant may appeal a dispute, with regard to the granting of credit for CCP courses, from the State Board to ODE.

R.C. 3365.04, 3365.05, 3365.12, conforming change in R.C.3365.15

Requires high schools and colleges to adopt a policy for awarding grades under the CCP program, under which CCP participants must receive a grade of "C" or better in a CCP course to receive credit for that course. (This provision applies to the awarding of both high school and college credit.)

No provision.

Applies the minimum grade threshold ("C" or better) for a CCP course to count toward the high school's graduation requirements and subject area requirements.

Fiscal effect: None directly. According to Department of Higher Education data, roughly 95% of CCP participants in the 2015-2016 school year had a GPA of 2.0 or more (which, on a 4.0 scale, typically equates to a "C" or better) in CCP courses.

EDUCD45 College Credit Plus - default payment structure

R.C. 3365.07, 3365.01, conforming change in R.C. 3301.0712

Prohibits payments made by the Department for a CCP course under an alternative payment structure from being below the default floor amount (in FY 2017, the default floor amount per credit hour is \$42).

R.C. 3365.07, 3365.01, conforming change in R.C. 3301.0712

No provision. (Current law permits CCP payments below the default floor, so long as the agreement complies with all other requirements of the CCP program.)

Executive

As Passed by the House

Prohibits payments made by ODE for a CCP course under an alternative payment structure from exceeding the college's standard rate for an undergraduate course, if that rate is less than the default ceiling amount (the default ceiling rate per credit hour for FY 2017 is \$166). Defines "standard rate" for the purposes of the CCP program as the in-state, undergraduate tuition cost per credit hour for non-CCP students.

Same as the Executive.

Specifies that if ODE is required to pay the default ceiling amount or 50% of the default ceiling amount for a CCP course under the default payment structure, ODE must instead pay the college's standard rate, if that rate is less than the default ceiling amount, or 50% of that amount, whichever is applicable.

Same as the Executive.

Fiscal effect: May increase or decrease the aggregate amounts paid to colleges under CCP, which are funded through deductions of school district state foundation aid for public school students and direct appropriations for chartered nonpublic and home-instructed students. On one hand, colleges with agreements below the default floor amount will experience a gain in revenue while, conversely, school districts that have entered into such agreements will experience an increase in the amount deducted from their state foundation aid for each applicable participant in CCP. On the other hand, there will be a revenue loss for colleges that will be limited to charging their standard rate. Due to their lower tuition rates, this provision primarily affects community colleges and could also affect some university branch campuses. Accordingly, deductions of state aid from school districts may decrease.

Fiscal effect: Same as the Executive, but eliminates the As Introduced bill's fiscal effects associated with its prohibition on payments below the default floor.

EDUCD48 College Credit Plus - textbooks

R.C. 3365.072, 3365.01, 3365.07, conforming change in R.C. 3301.0712, Section 733.30

Requires, beginning in the 2018-2019 school year, each public and nonpublic high school to enter into an agreement with each college that enrolls the school's participants under Option B of CCP to specify arrangements for the provision of textbooks. Specifies that a textbook agreement is separate from any CCP funding agreement that the school and college enter into for the payment of tuition and fees under the program.

Requires the agreement to include the following provisions:

- (1) The college must provide all required textbooks to participants.
- (2) The high school must pay for the textbooks under one of the following two options:
 - (a) The school pays the college \$10 per credit hour per participant, the college owns the textbooks, and the participant returns the textbooks to the college; or
 - (b) The school and the college agree on an amount, which the school pays to the college, and specify who owns the textbooks and to whom the participant returns the textbooks.
- (3) Participants cannot be charged for required textbooks.

(4) The procedures established for the efficient distribution of textbooks to participants, which must include specified administrative and procedural information.

Prescribes a different structure for home-instructed participants to procure textbooks under CCP by requiring the participant to choose one or more of the following arrangements and notify the college of the option selected:

(1) The participant pays the college \$10 per credit hour to rent the textbooks, the college owns the textbooks, and the participant returns the textbooks to the college.

(2) The participant purchases and owns the textbooks.

Defines "textbook" as any paper, electronic, or other purchased coursework material.

Permits multi-year textbook agreements for textbooks required for courses that are delivered at the high school on a regular basis and taught by a high school teacher.

Requires high schools to include information on the school's textbook agreements in the counseling information currently provided to students.

Requires the Chancellor of Higher Education, in consultation with the Superintendent of Public Instruction, to collect regular feedback regarding textbook agreements from schools, colleges, and interested parties.

Fiscal effect: The overall effect is uncertain given that textbook arrangements under current law vary depending on the type of high school, college, and availability of alternative CCP payment arrangements. However, it is possible that the provision shifts responsibility for a portion of the costs of textbooks for some CCP participants to the college by limiting the high school's cost to \$10 per credit hour per participant as one funding option. Under current law, public and chartered nonpublic high schools must pay for a student's textbooks if the student is enrolled in a public college and ODE pays the default payment amounts under CCP. However, if the high school and college enter into an agreement establishing an alternative payment structure, the high school and college may determine an alternative arrangement for which entity is responsible for the student's textbooks. In other circumstances, textbook arrangements are left to the high school and the college to determine under an alternative payment structure.

Fiscal effect: Same as the Executive, but may increase the share of textbook costs paid by a participant's school district.

eligible for participation of such ineligibility, (4) mechanisms to assist underperforming participants, (5) the role of school guidance counselors and college academic advisors in assisting underperforming participants, (6) if a student is determined to be ineligible for participation, any consequences that ineligibility may have on the student's ability to complete the high school's graduation requirements, and (7) the school year for which implementation of the rules first apply.

Requires the Chancellor of Higher Education, in consultation with the Superintendent of Public Instruction, to establish a process to receive input from public and private high schools and colleges, and other interested parties.

Fiscal effect: Depending on the rules adopted, may reduce participation in the CCP program, and thus, the amounts deducted from school district state foundation aid allocations to pay the costs of the program for public school students.
